

International Symposium on Ionic Polymerization 2013 Awaji-Island, JAPAN

September 23 (Mon) – 28 (Sat), 2013

IUPAC

Scope

The International Symposium on Ionic Polymerization, 2013 (IP2013) addresses contemporary research, both fundamental and applied, in the areas of **anionic, cationic, and ring-opening polymerizations**. Papers related to other techniques of **living/controlled polymerization**, such as "living" radical polymerization and chain-growth condensation polymerization, are welcome in so far as they broaden the scope of ionic polymerizations. Industrial applications and practices of these well-controlled polymerizations are welcome. The symposium will also incorporate a limited number of contributions on the properties and analysis of polymeric materials prepared by techniques of controlled polymerization.

Venue

The symposium venue is **Awaji Yumebutai*** (which literally means "Dream Stage") International Conference Center in Awaji Island, located in the Seto Inland Sea, facing Osaka Bay area. The Awaji Yumebutai International Conference Center was designed by a world-renowned architect Tadao Ando, established after the Great Hanshin-Awaji Earthquake in 1995. The location is easily accessible from Kobe and Osaka via the Akashi Kaikyo Bridge. Public Bus services from the Kansai International Airport also offer an easy access to the conference center.

History of IP series symposia

The IP has roots from the series of international symposia on Cationic Polymerization, Anionic Polymerization, and Ring-Opening Polymerization, which were merged as International Symposium on Ionic Polymerization in 1995, held in Istanbul, Turkey. Decision of the merger was made in the 11th International Symposium on Cationic Polymerization and Related Processes, held in Borovetz, Bulgaria, in 1993, with the recognition of closer relationship and interplay among these polymerization processes in view of precise control of polymer structures and macromolecular architectures. Thus this Symposium on Ionic Polymerization, IP 2013, will be the 21st symposium as the Cationic series as well as the 10th one named "Ionic Polymerization" after the merger.

1995	Istanbul
1997	Paris
1999	Kyoto
2001	Creta
2003	Boston
2005	Goa
2007	Kloster Banz
2009	Krakow
2011	Akron
2013	Awaji

IP 2013 Awaji

Call for Papers

If you wish to submit a paper for presentation, please use the Application Form in the web site;

<http://ip13awaji.jp/callforpaper.html>

Contributed papers will be accepted as either in oral or in poster. Twenty minutes will be allotted to each oral presentation including discussion. The Program Committee reserves the right to allocate an oral paper as a poster if necessary.

Deadlines

Application for Paper Presentation	June 17, 2013
Abstract Submission	July 15, 2013

Accommodations

Official hotels are as follows:

The Westin Awaji Island:	http://www.westin-awaji.com/en/
Seaside Hotel Maiko Villa Kobe:	http://www.maikovilla.co.jp/english

Registration

Advanced Registration

(Before and until June 30, 2013)

Full Participant	JPY 50,000
IUPAC Member	JPY 45,000
Student	JPY 15,000
Accompanying Person	JPY 10,000

Late Registration

(from July 1 to August 31, 2013)

Full Participant	JPY 55,000
IUPAC Member	JPY 50,000
Student	JPY 20,000
Accompanying Person	JPY 15,000

On-site Registration

Full Participant	JPY 60,000
IUPAC Member	JPY 55,000
Student	JPY 25,000
Accompanying Person	JPY 20,000
